

What are the Guaranteed Standards?

The **Guaranteed Standards** are performance measures that guide the provision of utility services delivered by the National Water Commission, small water providers and the Jamaica Public Service Company Ltd. If the companies fail to honour the agreement, the customer is entitled to compensation which is applied as a credit to the account. Customers should know their rights and hold the utility service providers accountable.

HOW ARE NWC CUSTOMERS COMPENSATED?

- Compensation for breach of a standard is four (4) times the applicable service charge OR six (6) times the service charge for those in the special compensation category.
- Where applicable, customers must submit their claims within 120 days of the breach.
- Breaches of individual standards will attract compensation of up to six (6) periods of non-compliance.

STANDARDS ATTRACTING SPECIAL COMPENSATION

These standards are:

- Reconnection after payment of overdue amounts.
- Wrongful disconnection.
- Reconnection after wrongful disconnection.

Guaranteed Standards claim forms are available at all NWC offices and on the company's website [www.nwcjamaica.com]. They can also be found on the OUR's website [www.our.org.jm].

Once you have filled out the form, ensure that it is signed by a customer service representative and that you receive a receipt. Credit will be applied to your NWC account within 30 days after the claim is received, reviewed and approved.

This credit will be reflected on your bill as a '**Guaranteed Standard Compensation**'. If your bill does not reflect the credit, contact your NWC parish office for further information.

Regulating Utilities For The Benefit Of All

WHO WE ARE

The Office of Utilities Regulation Act of 1995 established the Office of Utilities Regulation ('the Office'/OUR) as a body corporate. Under the Act (as amended), the OUR is charged with the responsibility of regulating the provision of utility services in the following sectors:

- **ELECTRICITY**
- **TELECOMMUNICATIONS**
- **WATER & SEWERAGE**

WHAT WE DO

- Ensure that consumers of utility services enjoy an acceptable quality of service at a reasonable cost.
- Establish and maintain transparent, consistent and objective rules for the regulation of utility service providers.
- Promote the long-term efficient provision of utility services for national development consistent with Government policy.
- Provide an avenue of appeal for consumers who have grievances with the utility service providers.
- Work with other related agencies in the promotion of a sustainable environment.
- Act independently and impartially.
