Mr. Ansord Hewitt
Secretary of the Office
Office of Utilities Regulation

Dear Mr. Hewitt,

Re: OUR's Management Plan for Fiscal Years 2010/11 – 2012/13 & Budget for Fiscal Year 2010/11

LIME welcomes the opportunity to provide feedback on the OUR's Management Plan for Fiscal Years 2010/11 – 2012/13 & Budget for Fiscal Year 2010/11 (hereafter called "the Plan"). To facilitate easy cross reference to the OUR's document, LIME' proposes to refer to excerpts of "the Plan" and then state LIME's response. LIME reserves the right to provide further feedback as it deems appropriate.

Given the current highly competitive state of the telecommunications industry in Jamaica, LIME wishes to encourage the OUR to take a more proactive approach to creating a "level playing field" where all operators have an equal opportunity to compete for market share. This encouragement is also given in the context of LIME's concern that the Plan appears to be slanted heavily towards the OUR's regulation of LIME rather than the Industry as a whole.

A fresh approach from Cable & Wireless
