

OFFICE OF UTILITIES REGULATION

Regulating Utilities for the Benefit of All

PUBLIC NOTICE

**Reinstatement of International Carrier Licence to
Newgen Technologies Company Limited (“Newgen”)**

By way of an Order issued on November 8, 2007, the Honourable Clive Mullings, then Minister of Energy, Mining and Telecommunications, gave notice of the suspension of Newgen Technologies Limited’s (Newgen’s) International (Voice/Data) Carrier licence. Newgen’s licence was suspended pursuant to Section 14 (4) (a) of the Telecommunications Act 2000 consequent upon its failure to pay the universal service levy.

Newgen has now concluded arrangements to settle its universal service levy payment obligations. Consequent on this, the Minister with responsibility for Telecommunication matters (the Honourable Daryl Vaz) has requested that the Office advise the public and all Carrier and Service Providers that Newgen is free to operate according to the terms and conditions of its International (Voice/Data) Carrier Licence.
