

INFORMATION CENTRE - OURIC

OURIC collects, organises, preserves, promotes and provides access to intellectual content, created by our expert team at the Office of Utilities Regulation, (OUR). Among our wide-ranging Collection you will find significant Decisions dating back to 1997! Other publications include Consultation Documents, Determination Notices and Quality of Service Standards, all relevant to the utilities regulatory sector. Did you know that we are the author of Jamaica's Numbering Plan? The Collection which is the only one of its kind in the Caribbean, encourages continued research.

OUR PUBLICATIONS

01. Tariff Applications

Tariff Applications are requests submitted by public utility companies when seeking to have a review of their rate structure (rate review).

02. Consultation Documents

Consultation Documents are public discussion papers in which the OUR:

- brings to the public attention important issues relating to utility regulation
- puts forward options and/or proposals as to the approach to adopt in dealing with these issues and to seek to resolve them in the best interests of consumers and the society at large and invites comments from the general public and from other interested parties such as service providers, businesses, professionals and academics.

03. Jamaica National Numbering Plan

The Jamaica National Numbering Plan devises rules that ensures fair and equitable access to telecommunication numbers by carriers and service providers in Jamaica.

04. Determination Notices/ Decisions

A Determination Notice outlines a definitive decision, opinion or conclusion prepared and issued by the OUR on a matter such as a response to a request for a rate review by a public utility. The document presents the legal authority for the OUR's decisions on the matter as the independent regulatory body. (Decisions are usually made based on consultations, discussions and best practices)

05. Directives

Directives are instruments issued by the OUR specifying the manner in which a matter must be dealt with a matter, and as such is mandatory.

06. Quality of Service Standards

Quality of Service (QoS) Standards are a set of Overall and Guaranteed Standards developed by the OUR to ensure that the providers of utility services deliver a certain value to consumers. The OUR regulates the services of utility service providers prescribing minimum standards in relation to utility services. The existence of Overall and Guaranteed Standards serve as a guide to service delivery and motivates the providers of services to strive to continuously improve its services to consumers.
