Office of Utilities Regulation
P.O. Box 593
36 Trafalgar Road
Kingston 10

Attention : Infrastructure Sharing Consultation

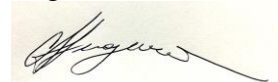

The C.A.C.U notes that in the responses to the above consultation, there are a number of relevant and material points for the Office to take note of before proceeding to finalise a determination on the matter of infrastructure sharing.

The OUR should be careful of regulatory capture and should not appear to be micro-managing aspects of the telecommunications industry.

Our view is that a framework, taking into consideration international best practices, should be established and allow for competitive market forces to take effect within proper regulatory oversight.

We certainly believe that the determination should be reviewed and re-issued for further consultation taking these initial responses into consideration.

Regards,

Carolyn Ferguson PE. PMP
Engineer & ICT Professional
Consumer Advisory Committee on Utilities (C.A.C.U)
