

SPECIAL OFFER

CYBERSECURITY AWARENESS TRAINING

Symptai's Online Security Awareness Training (SAT) platform, powered by Breach Secure Now (BSN), equips employees with the knowledge and skills to identify and respond to cyber threats. The platform delivers continuous, role-relevant training that transforms staff into proactive defenders of organisational data.

Key Features:

- Engaging modules, real-time phishing simulations, and interactive content.
- Focus on reducing human error—one of the leading causes of breaches.
- Tailored packages with micro-learning, AI awareness, and actionable tips.
- Promotes a culture where security is a shared responsibility.

Logistics

- **Duration:** Each course is self-paced, typically 15–35 minutes.
- **Access:** Delivered via the Breach Secure Now platform.
- **Promotion:** As part of our current offering, all users receive 3 months' access.
- **User Setup:** Once selected, each organisation's users will be configured in the BSN platform and provided access credentials.
